17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

- Effective date of lease Jan. 1, 1973. Lease is in extended term/held by production.
- Production on this lease has become noncommercial due to low oil pricing. Abby #1 has been shut in for 1 year. Abby #3 has been producing 6 BOPM, 0 MCF and 2132 BWPM as of Feb. 1990.
- The operator and partner would like to rework existing wells and drill additional wells on this lease when stable oil prices would justify economics. Request that lease be exempt from production due to current economic conditions.
- Please be advised that failure to suspend production operations on this lease will lead to premature abandonment of these wells and consequently loss of reserves and revenue to both lease owners and Federal Government.
