13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This well was converted to a water supply well in 1991 (See attached copies of application). We are finishing an application to expand a pilot water flood on an adjoining lease and have plans to use one well as injection fluid supply well. Work is anticipated to start in six months.

Cost to finish the well for supply purposes is estimated at \$30,000, including tanks, lines, pumps, right-of-way, etc.

We therefore are requesting the well to be temporarily abandoned until the project is ready for expansion.

A casing integrity test will be performed by 9-15-94.

14. I hereby certify that the foregoing is true and correct
