

FLAG REDFERN  
DST#: 2  
DELTA 17 #1  
4420 - 4468ft.

Page 1

Location: 17-25S-28E  
Test Type: INFLATE STRADDLE  
Formation: DELAWARE

Recorder Number: 13139  
Recorder Depth: 4430

SAMPLE DATA  
\*\*\*\*\*

SAMPLE CHAMBER:  
\*\*\*\*\*

|                              |             |      |
|------------------------------|-------------|------|
| Capacity of sample chamber   | 2600        | cc   |
| Volume of sample.....        | 2600        | cc   |
| Pressure in sampler.....     | 12          | psig |
| Where sampler was drained... | on location |      |

Sampler contained:  
Water 1300 cc  
Mud 1300 cc

RESISTIVITY DATA:  
\*\*\*\*\*

|                  |                  |
|------------------|------------------|
| Top.....         | 100 000 PPM NACL |
| Middle.....      |                  |
| Bottom.....      |                  |
| Sampler.....     | 130 000 PPM NACL |
| Mud pit.....     | 80 000 PPM NACL  |
| Make-up Water... |                  |
