Re: Logs Due September 30, 1985
Electrical & Radio Activity

Rule 1105, Oil Conservation Division Rules & Regulations reads in part, "Within 20 days following the completion or recompletion of any well, the operator shall file Form C-105* with the OCD. It must be filed in QUINTUPLICATE and each copy accompanied by a summary of all special tests conducted on the well, including drill stem tests. In addition, one copy of all Electrical and Radio-Activity logs run on the well must be filed with Form C-105. If form C-105 with attached log(s) and summaries is not received by the Division within the specified 20-day period, the allowable for the well will be withheld until this rule has been complied with."

*Form C-105 is not required on Federal wells, however, one set of logs should be sent to the appropriate District office of the OCD.
