17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

Original permit to drill approved 3/18/86.

Since the original application for permit to drill the Brushy 12 Federal #4 was made, we have modified our initial plans. We respectfully request that the following changes be made on our permit to drill:

1. The proposed depth is 3,500' instead of 5,600'.
2. Production casing will be cemented with sufficient volume to place top of cement in salt zone (approximately 2,900') using single-stage pumping schedule.

We intend commencing drilling before 3/31/87.

18. I hereby certify that the foregoing is true and correct
