

8. Other Facets of the Proposed Operation

Completion operations: perforate, stimulate, and production test the Williamson Sand interval based on electric logs and shows.

Contact W. F. Burchard at 915/688-7892 or Bob Grady at 915/688-7887 with any questions concerning this eight-point plan.

A handwritten signature in cursive script, appearing to read "W. F. Burchard", written over a horizontal line.
