

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

PAGE 4

8. ANCILLARY FACILITIES. None required.

9. WELL SITE LAYOUT.

A. Exhibit "G" shows the well site layout with general dimensions for the location and reserve pit.

1. The reserve pit will be lined.

10. PLAN FOR RESTORATION OF THE SURFACE.

1. All pits will be back filled and all waste material removed or buried in pits. Land adjacent to drilling pad will be levelled.

2. Re-vegetation and rehabilitation to be completed as per BLM recommendations.

3. Prior to rig release, pits will be fenced and maintained until clean up.

4. Any oil in pit will be transferred to steel stock tank and separated and sold.

5. All clean up should be completed within 6 months of well completion.

11. OTHER INFORMATION.

1. The well location and access road is situated entirely in Section 10, which is Federally owned. The portion of the proposed access road that exists shall be reconstructed. (See Exhibit "F").

2. No ponds, lakes, streams, water wells, or occupied dwellings exist in the area.

12. LEASEE'S OR OPERATOR'S REPRESENTATIVE:

Steve Gray, P.O. Box 1240, Graham, TX 76450

Phone: (817)549-0780

13. CERTIFICATION.

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drill site and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and that the work associated with the operations proposed herein will be performed by Successful Bidder and its contractors in conformity with this plan and the terms and conditions under which it is approved.
