13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Pogo Producing Company respectfully requests a venting permit for the above mentioned well. The well is capable of producing 35 MCFGPD but 10-15 MCFPD is expected to be consumed by the pumping unit engine and heater treater.

Due to low gas sales and the high cost of installing a gas sales line (\$18,000) Pogo request a permit be granted. If drilling continues, adding wells and gas production to the battery, a pipeline will be installed at that time.
