

6. SOURCE OF CONSTRUCTION MATERIALS:

Re-open pit located in the NWSE of Section 5-T24S-R1E on Federal Surface.

7. METHODS OF HANDLING WASTE DISPOSAL:

- A. Drill cuttings will be disposed of in the reserve pits.
- B. Drilling fluids will be allowed to evaporate in the reserve pits until the pits are dry.
- C. Water produced during operations will be contained in tanks until hauled to an approved disposal system, or separate disposal application will be submitted.
- D. Oil produced during operations will be stored in tanks until sold.
- E. Current laws and regulations pertaining to the disposal of human waste will be complied with.
- F. All trash, junk, and other waste materials will be contained in trash cages or bins to prevent scattering and will be removed and deposited in an approved sanitary landfill.

8. RESTORATION REQUIREMENTS:

- A. None required.

9. WELL SITE LAYOUT:

- A. Exhibit C shows the relative location and dimensions of the well, the two reserve pits, the location of the drilling equipment, rig orientation and access road approach.
- B. The reserve pit will be plastic lined.
- C. A 400' x 400' area has been staked and flagged.

10. PLANS FOR RESTORATION:

- A. After finishing drilling and/or completion operations, all equipment and other material not needed for further operations will be removed. The location will be cleaned of all trash and junk to leave the site in as aesthetically pleasing a condition as possible.
- B. Unguarded pits of any, containing fluids will be fenced until they have dried and been leveled.
- C. If the proposed well is non-productive, all rehabilitation and/or vegetation requirements of the Bureau of Land Management will be complied with and will be accomplished as expeditiously as possible. All pits will be filled level within 30 days after abandonment.

11. SURFACE OWNERSHIP: Federal Surface administered by Bureau of Land Management, Carlisle Resource Area.

12. OTHER INFORMATION:

- A. Topography: Refer to the existing archaeological report for a description of the topography, flora, fauna, soil characteristics, dwellings, historical or cultural sites.
- B. The primary surface use is for grazing.
