13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Bass Enterprises Production Company respectfully requests approval of off-lease storage and/or measurement and surface commingling of production into an existing tank battery, Commingling Order CTB-399. Production from the subject lease will be metered separately at the Poker Lake Unit #78 battery prior to being commingled. Approval of this request for off-lease storage and/or measurement and surface commingling will allow for more efficient use of existing facilities. Also, gas sales and SWD connections are available at the existing battery. Surface disturbance will also be minimized by using the existing facility. Full wellstream production will be transported via flowline to a three phase heater treater. Oil, water and gas will be separated at this vessel. The oil and water will be metered prior to being stored in the commingled stock tank and water tank. The gas will be metered via a separate sales meter. Estimated production from the Poker Lake Unit Delaware "B" PA will be 440 BOPD, 1238 BWPD, 1243 MCF per day. Estimated production from the Poker Lake #98 Lease will be 15 BOPD, 80 BWPD, 90 MCF per day. The API oil gravity for the subject leases is 44.0 (sweet). Current posted price is \$23.50 per barrel.

14. I hereby certify that the foregoing is true and correct

Carlsbad, NM 88220-6292

EXISTING COMMINGLING ORDER NO. CTB-399

Bass Enterprises Production Company is requesting approval for surface commingling and off-lease storage and/or measurement of hydrocarbon production from the following formation(s) and well(s) on Federal Lease No. NMNM0506-A, Lease Name Poker Lake.

<u>WELL</u> <u>NO.</u>	<u>Loc.</u>	<u>Sec.</u>	<u>Twp.</u>	<u>Rng.</u>	<u>Formation</u>
<u>98</u>	<u>UL E</u>	<u>30</u>	<u>24S</u>	<u>31E</u>	<u>Delaware</u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

with hydrocarbon production from the following formation(s) and well(s) on Federal Lease No. NMLC061705-B, Lease Name Poker Lake Unit Delaware "B" PA. Agreement No. 891000303E.

<u>WELL</u> <u>NO.</u>	<u>Loc.</u>	<u>Sec.</u>	<u>Twp.</u>	<u>Rng.</u>	<u>Formation</u>
---------------------------	-------------	-------------	-------------	-------------	------------------

See Attached List

Production from the wells involved is as follows:

<u>Well Name and No.</u>	<u>BOPD</u>	<u>Oil Gravity</u>	<u>MCFD</u>
<u>Poker Lake #98</u>	<u>15</u>	<u>44.0</u>	<u>90</u>
<u>Delaware "B" PA</u>	<u>440</u>	<u>44.0</u>	<u>1243</u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>

The proposed operation is described in detail on the attached diagrams.

A map is enclosed showing the lease numbers and location of all leases and wells that will contribute production to the proposed commingling/common storage facility. All unitized/communitized areas, producing zones/pools are also clearly illustrated.

A schematic diagram is also attached which clearly identifies all equipment that will be utilized.

The storage and measuring facility is located at Unit A, Section 25, T24S, R30E, on Lease No. LC-061705-B, Eddy County, New Mexico. BLM will be notified if there is any future change in the facility location.

Details of the proposed method for allocating production to contributing sources is as follows:
Total wellstream production will be transported via flowline to a three phase heater treater. The gas will be separated and sold through a lease sales meter. The oil will be separated and metered through a positive displacement meter prior to commingling.

The working interest owners have been notified of the proposal.

The proposed commingling of production is in the interest of conservation and will not result in reduced royalty or improper measurement of production.

The proposed commingling will allow for more efficient use of existing facilities.

We understand that the requested approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument. And, we will submit within 30 days in application for right-of-way approval to the BLM's Realty Section in your office if we have not already done so.

Additional wells require additional commingling approvals.
