IF THIS IS AN AMENDED REPORT. CHECK THE BOX LABLED "AMENDED REPORT" AT THE TOP OF THIS DOCUMENT

Report all gas volumes at 15.025 PSIA at 60°. Report all oil volumes to the nearest whole barrai.

A request for ellowable for a newly drilled or deepened well must be accompanied by a tabulation of the deviation tests conducted in accordance with Rule 111.

All eactions of this form must be filled out for allowable requests on new and recompleted wells.

Fill out only sections I. II. III. IV, and the operator certifications for changes of operator, property name, well number, transporter, or other such changes.

A separate C-104 must be filed for each pool in a multiple completion.

Improperly filled out or incomplete forms may be returned to operators unapproved.

٩. Operator's name and address

3.

- Operator's OGRID number. If you do not have one it will be assigned and filled in by the District affice. 2.
- Reason for filing code from the following table: NW New Well RC Recompletion CH Change of Operator AO Add oil/condensate transporter CO Change oil/condensate transporter AG Add se transporter CG Change gas transporter RT Request for test allowable (include volume requested) If for any other reason write that reason in this box.
- 4. The API number of this well
- 6. The name of the pool for this completion
- 6. The pool code for this pool
- 7 The property code for this completion
- 8. The property name (well name) for this completion
- \$. The well number for this completion
- The surface location of this completion NOTE: If the United States government survey designates a Lot Number for this location use that number in the 'UL or lot ne.' bes. Otherwise use the OCD unit letter. 10.
- 11. The bottom hole location of this completion
- 12. Lesse code from the following table:
 - - ;
 - ŇU
- Federal State Fee Jicaritia Navajo Ute Mountain Uta Other Indian Tribe
- 13. The producing method code from the following table: Flowing Pumping or other artificial Str
- 14.
- MO/DA/YR that this completion was first connected to a **GAG Transporter**
- 15. The permit number from the District approved C-129 fer this completion
- MO/DA/YR of the C-129 approval far this completion 18.
- MO/DA/YR of the expiration of C-129 approval for this completion 17.
- 18. The gas or oil transporter's OGRID number
- 19. Name and address of the transporter of the product
- The number assigned to the POD from which this product will be transported by this transporter. If this is a new well or recompletion and this POD has no number the district office will assign a number and write it here. 20.
- 21. Product code from the following table: O Oil G Gae Oil Gae

- The ULSTR location of this POD H it is different from the well completion location and a short description of the POD (Example: "Sattery A", "Jones CPD", etc.) 22.
- The POD number of the storage from which water is moved from this property. If this is a new well or recompletion and this POD has no number the district office will easign a number and write it here. 23.
- The ULSTR location of this POD W it is different from the well completion location and a short description of the POD (Example: "Battery A Water Tank", "Jones CPD Water Tank", etc.) 24.
- 26. MO/DA/YR drilling commenced
- MO/DA/VR this completion was ready to produce 28.
- 27. Total vertical depth of the well
- 28. Plugbeck vertical death
- Top and bottom perforation in this completion or casing shoe and TD If openhole 29.
- 30. inside diameter of the well bore
- Outside diameter of the casing and tubing 31.
- 32. Depth of casing and tubing. If a casing liner show top and
- 33. Number of sacks of coment used per casing string
- The following test data is far an all well it must be from a test conducted only after the total volume of load oil is recovered.
- MO/DA/YR that new all was first produced 34.
- MO/DA/YR that gas was first produced into a pipeline 36.
- MO/DA/YR that the following test was completed 36.
- 37. Longth in hours of the test
- Flowing tubing pressure oil wells Shut-in tubing pressure gas wells 38.
- Flowing casing pressure oil wells Shut-in casing pressure gas wells 39.
- 40. Diameter of the choke used in the test
- 41. Barrols of all produced during the test
- 42. Barrole of water produced during the vest
- 49. MCF of gas produced during the test
- 44. Gas well calculated absolute open flow in MCF/D
- The method used to test the well: F Flowing P Pumping S Swebbing H other method please write it in. 45.
- The signature, printed name, and title of the person authorized to make this report, the date this report was signed, and the telephone number to call for questions about this report 44.
- The previous operator's name, the signature, printsd name and title of the previous operator's representative authorized to varify that the previous operator holds operatos this campiation, and the date this report was signed by that person 47.
