If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The NMOCD-Artesia requested that the well number/<sup>be</sup>changed, as their new computer program will not accept more than 3 digits in the well number. For this reason, the proposed well name and number has been changed to Lotos "10" Federal No. 1. The location calls remain unchanged.

We apologize for any inconvenience this will cause.
