New Mexico Ol Conservation Division C-104 Instructions

IF THIS IS AN AMENDED REPORT. CHECK THE BOX LABLED "AMENDED REPORT" AT THE TOP OF THIS DOCUMENT

Report off gas volumes at 15,025 PSIA at 60°, Report off oil volumes to the nearest whole barrel,

A request for allowable for a newly drilled or despend well must be accompanied by a tabulation of the deviation tests conducted in accordance with Rule 111.

All sections of this form must be filled out for allowable requests on new and recompleted wells.

Fill out only sections I, II, IV, and the operator certifications for changes of operator, property name, well number, transporter, or other such changes.

A separate C-104 must be filed for each pool in a multiple completion.

Improperly filled out or incomplete forms may be returned to operators unapproved.

- 1. Operator's name and address
- Operator's OGRID number. If you do not have one it will be assigned and filled in by the District effice. 2.
- Reason for filing code from the following table:

 NW New Well

 RC Recompletion

 CH Change of Operator

 AO Add oil/condensate transporter

 CO Change oil/condensate transporter

 AG Add gas transporter

 CG Change ges transporter

 RT Request for test allowable (Include volume requested) 3.

request for test allowed inches vi requested)
If for any other reason write that reason in this box.

- 4. The API number of this well
- **5**. The name of the pool for this completion
- The pool code for this pool
- 7. The property code for this completion
- 2. The property name (well name) for this completion
- The well number for this completion
- The surface location of this completion NOTE: If the United States government survey designates a Lot Number for this location use that number in the 'UL er lot ne.' bez. Otherwise use the OCD unit letter. 10.
- 11. The bottom hole location of this completion
- 12. Lease code from the following table: Federal
 State
 State
 Jicarilla
 Navajo
 Ute Mountain Uta
 Other Indian Tribe
- The producing method code from the following table:

 Flowing
 Pumping or other artificial lift 13.
- MO/DA/YR that this completion was first connected to a 14. gad transported
- 15. The permit number from the District approved C-128 for this completion
- 14 MO/DA/YR of the C-129 approval for this completion
- MO/DA/YR of the expiration of C-129 approval for this completion
- 18. The gas or oil transporter's OGRID number
- 19. Name and address of the transporter of the product
- The number sesigned to the POD from which this product will be transported by this transporter. If this is a new well or recompletion and this POD has no number the district office will assign a number and write it here.
- Product code from the following table:

 O Oil
 G Gas

- The ULSTR location of this POO if it is different from the well completion location and a short description of the POO (Example: "Battery A", "Jones CPO", etc.) 22.
- The POO number of the storage from which water is moved from this property. If this is a new well or recompletion and this POO has no number the district effice will seeign a number and write it here. 23.
- The ULSTR location of this POO if it is different from the well completion location and a short description of the POO (Example: "Settery A Water Tank", "Jones CPO Water Tank", ate.) 24.
- 26. MO/DA/YR drilling commenced
- MO/DA/YR this completion was ready to produce 26.
- 27. Total vertical depth of the well
- 28. Plugback vertical depth
- Top and bottom perforation in this completion or casing shoe and TD II openhole 29.
- 30. incide diameter of the well bore
- 31. Outside diameter of the casing and tubing
- 32. Depth of casing and tubing. If a casing liner show top and
- Number of sacks of coment used per casing string 33.

The following test data is for an all well it must be from a test conducted only after the total volume of load all is recovered.

- MO/DA/YR that new oil was first produced 34.
- MO/DA/YR that gas was first produced into a pipeline 36.
- MO/DA/YR that the following test was completed 36.
- 37. Longth in hours of the test
- Flowing tubing pressure oil wells Shut-in tubing pressure gas wells 38.
- 39. Flowing casing pressure - oil wells Shut-in casing pressure - gas wells
- 40. Diameter of the choke used in the test
- 41. Barrole of oil produced during the test
- 42. Barrols of water produced during the test
- 43. MCF of gas produced during the test
- 44. Gas well calculated absolute open flow in MCF/D
- The method used to teet the well:

 F Flowing
 P Pumping
 S Swabbing
 H other method please write it in. 45.
- The eignature, printed name, and title of the person authorized to make this report, the date this report was signed, and the telephone number to sell for questions about this report 44.
- The previous operator's name, the signature, printed name, and title of the previous operator's representative authorized to writy that the previous operator ne longer operator this completion, and the date this report was signed by that person 47.
