13. Described Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleta' horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This sundry is to add a 4-1/2" liner to the casing program for this new drill horizontal well for lateral #1.

Burlington Resources is currently drilling this horizontal well at a depth of 13,408' as of noon 3-3-98. Plans are to drill this well to a depth of 13,425' MD which we should reach by tomorrow 3-4-98. A decision was made to run a 4-1/2" Liner in the 6-1/8" open hole as follows:

Run 4-1/2" liner from 11,600' to 13,425' TDMD. Liner will not be cemented. A packer will be run to isolate the top of the liner and a negative test will be run prior to displacing the 13.5 + ppg mud out of the hole. See the proposed completion wellbore sketch attached.

This well was permitted for multi-lateral drainholes but we will only be drilling and completing lateral #1.

Verbal approval is requested by today as plans are to run this liner by tomorrow. Please call Maria L. Perez at A/C 915-688-6906. The original and 5 copies of this sundry are in the mail to you today.

14. I hereby certify that the foregoing is true and correct.
