13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Burlington Resources is currently storing some tubing at this location to build the batteries for the upcoming proposed federal new drill wells in this area.

Burlington Resources requests your permission to store this tubing at this location for one year. Our drilling program in this area is continuing for the rest of this year and next year.

This will keep Burlington from having to remove the tubing and then turning around and having to haul tubing back to this same area.

Lease Number NM15311 if for the surface location.
Lease Number NM16343 is for the bottom hole location.
