Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate durations thereof if the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and mose attack the Bond under which the work with the vork with the Work with t	Final Abandonment Notice	Change Plans		ly Abandon <u>for engineering</u>	
if the proposal is of deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and mose attach the Bond under which the work will be performed or provide the Bond No. on the with BLMBIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 31604 shall be filed vinition of the involved operations. If the operation is used to be involved operations and produced. Final Abandomment Notices shall be filed only ster all requirements, including reclamation, have been completed, and the operator had determined that the final site is ready for final inspection.) These Daph Crastion and Production. Inc. respectively seeks parmission to filane test gas at the Cotton Draw Unit #84. Unit Ltr "I", 2615' FEL and 1160' FEL, Sec 2, T-25-S, R-31-E, Eddy Country, New Marxicon, for a 6 to 8 hour particol on one day churing the weak of June 4-8, 2001. The amount of gas to be filaned will be consistent to the segual to 800 mcf. A pending contract well testing service will be on-aite churing this period of time. The purpose of this proceedure is to treat the well at a back pressure of 100 pest. This is required pre-engineering work to accumulate data for a compression upgrade for the Cotton Draw Unit gas wells #76, #84, and #86 in the near future.
