Attn: Les Babyak

RE: Off Lease Measurement Approval

Dear Mr. Babyak:

Marbob Energy Corporation respectfully requests approval to measure production from our Primero Federal No. 1 off-lease. To market the gas production from this well, Marbob had to install a pipeline to the closest purchaser. This resulted in gas production from the Primero Federal No. 1 being measured off-lease. Measurement is done via an industry approved meter. No other leases are being measured through this meter. All interest owners have been notified of the off-lease measurement and none objected. Federal royalties will not be reduced because of the off-lease measurement. Federal royalties would be reduced if request is denied and well shut in. Therefore, approval is justified economically. Enclosed to further aid in the review of this application are the following:

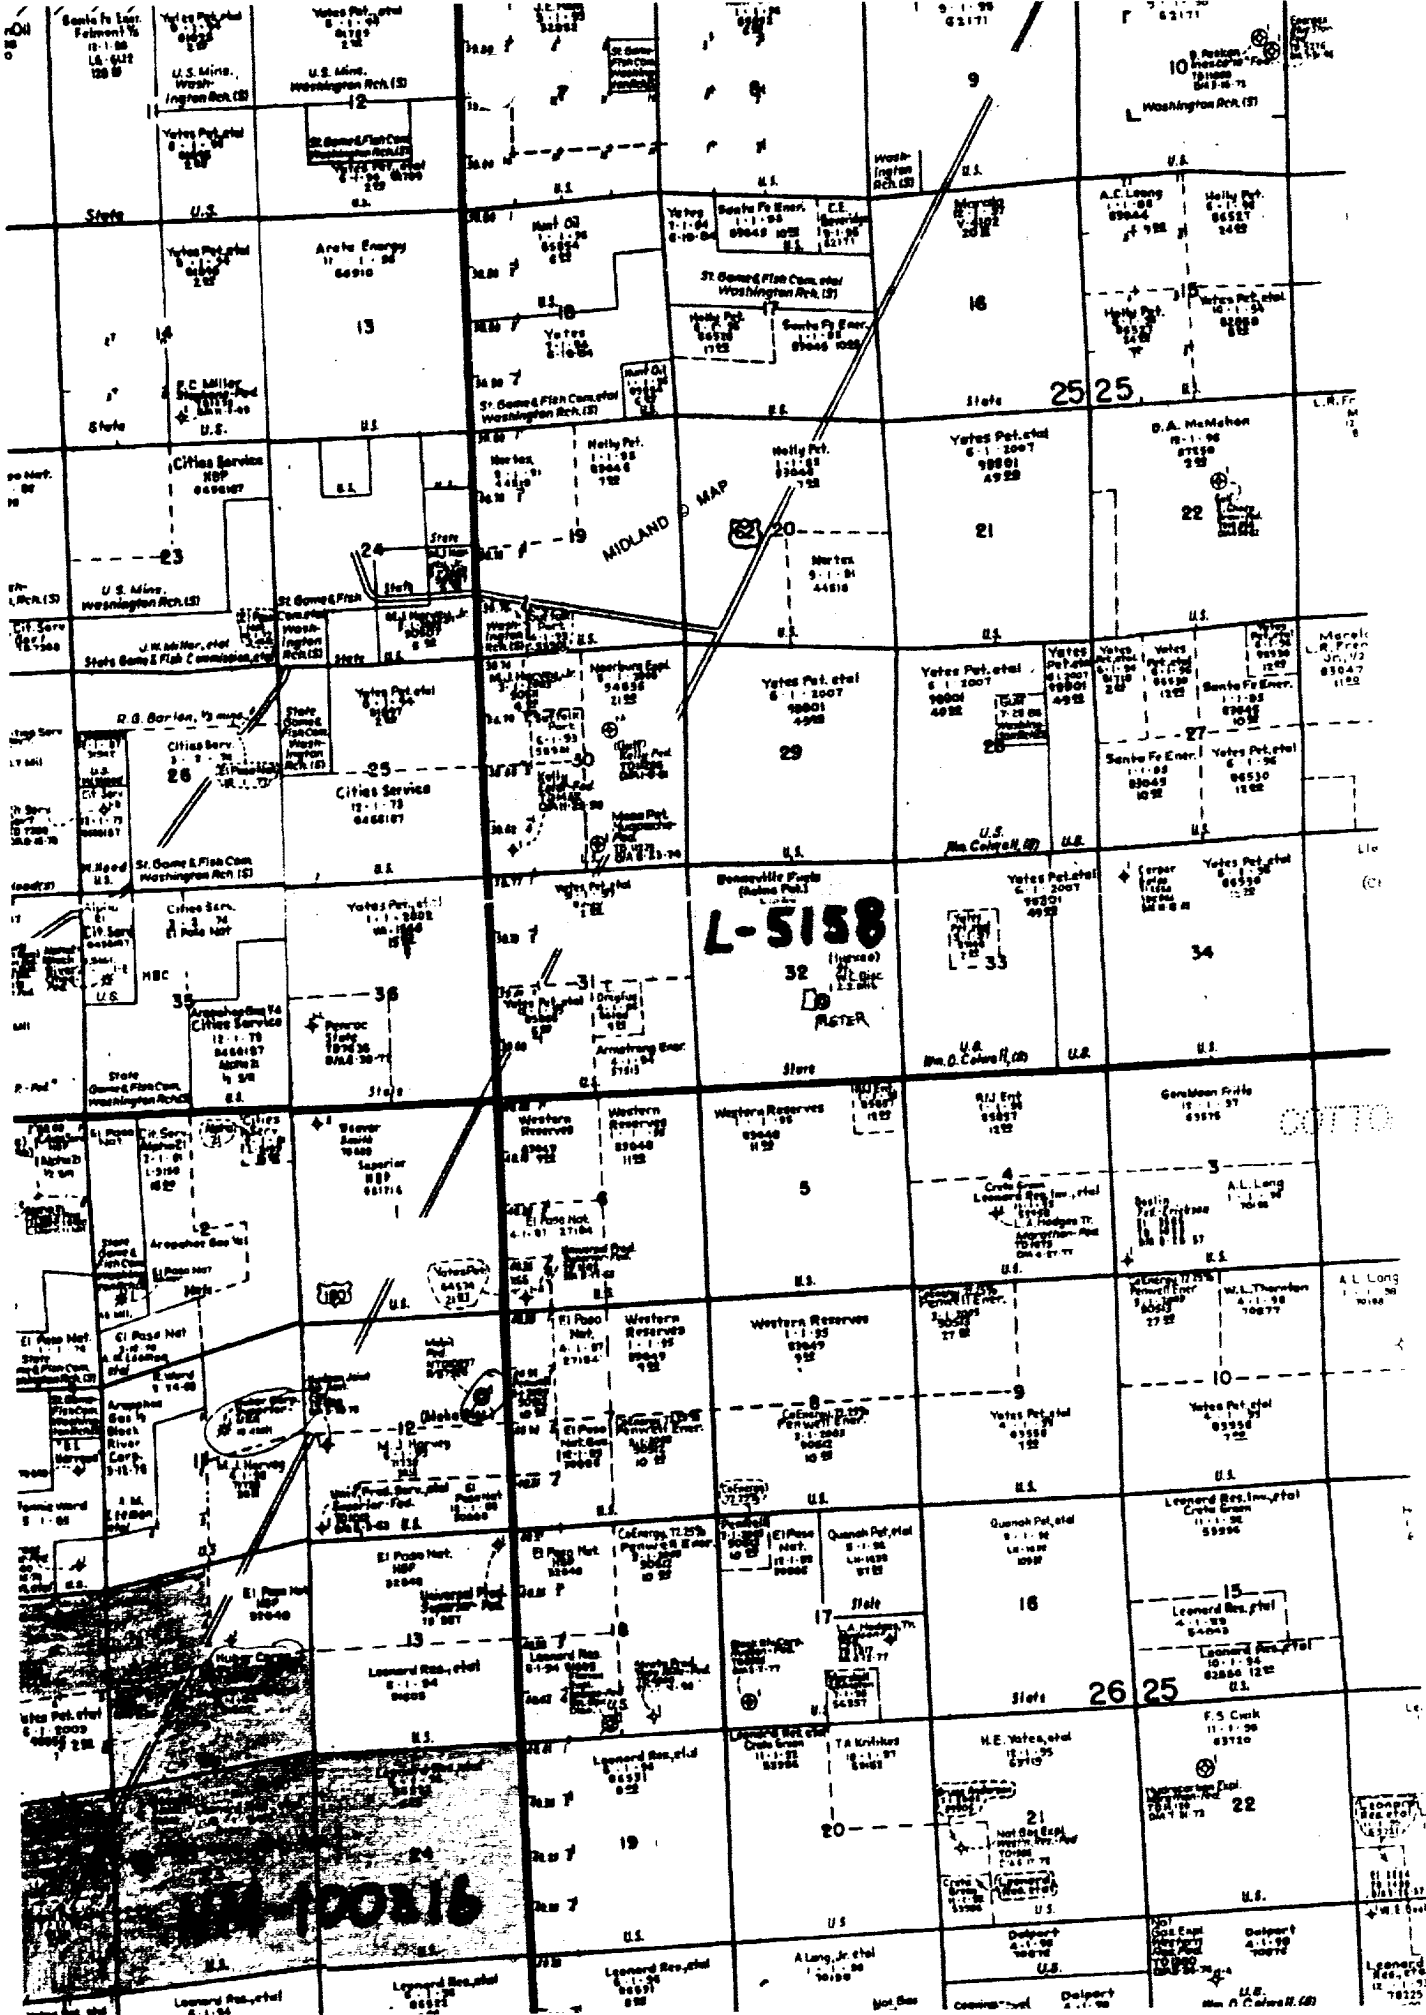

- A.) Plat identifying leases involved
- B.) Schematic Diagram of Equipment
- C.) Map Showing Route of Pipeline

Please do not hesitate to contact us should you have any questions.
Thank you for reviewing this request.

Sincerely,

Dean Chumbley
