13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well is outside the R-111 Potash rules and the BLM has approved Bass' original APD requiring only 575' of surface casing to be set. Bass Enterprises Production Co. requests that the pressure control stipulations (onshore Order #2) be waived. Bass plans to test our BOP's (double ram as minimum requirements) to 1000 psi using the rig pump. We plan to drill out after 12 hours WOC. Attached is a copy of the cement test used on Poker Lake Unit #150. We plan to use the same slurry for the "zone of interest" for Poker Lake Unit #151.
