

SURFACE USE PLAN

Attachment to BLM Form 3160-3

ARCO Permian

Well: West Brushy Federal #1

660'FNL, 330'FEL

Section 8-T26S-R29E

Eddy County, New Mexico

1. Directions to Location/Existing Roads

From Loving, New Mexico go South 17 miles on Highway 285, then turn left on CR 725. Go east 4.2 miles on CR 725 and turn right to location. Exhibits "4" and "5" are the Vicinity Map and the Location Verification Map, respectively.

- A. The proposed development wellsite is staked as shown on the certified location plat attached.
- B. Most of the existing roads will not require any improvement or repair. Any existing sections of road that need improvement or repair will be fixed to a condition equal to that of the good sections of the existing road. All roads will be maintained in a condition equal to that which existed prior to the start of the construction.

2. Planned Access Roads

- A. Approximately 30 feet of new access road will be required.
- B. New access roads will have a 12' wide travel lane and be surfaced with 6" compacted caliche.
- C. Turnouts: None
- D. Culverts: None
- E. Cuts and fills: No major road cuts or fills will be necessary.

3. Location of Existing Wells

- A. The existing wells within a one mile radius of this location are shown on Exhibit "6".

4. Location of Existing or Proposed Facilities

- A. Existing Facilities - No facilities are currently existing for this well.
- B. New Facilities Proposed - If a successful Delaware producer is completed, surface facilities will consist of treater and storage tanks for oil and water.

5. Location and Type of Water Supply

Fresh and brine water used in drilling and completion operations will be purchased from independent trucking companies located in Loving or Carlsbad, New Mexico. The water will be hauled over existing and new roads to the location.
