RE: Hub 2 State #1
Chaves County, New Mexico

Gentlemen:

The New Mexico Oil Conservation Commission approved the application of ANR Production Company on January 26, 1982, for the drilling of the Hub 2 State Well #1, located 1980' FNL and 660' FEL, Section 2, T9S, R22E, Chaves County, New Mexico. This permit expires July 26, 1982, unless drilling is then underway and this letter is to advise that ANR Production Company will not have this well drilling on that date and does not wish to renew nor extend this permit. This well will not be drilled at this time due to circumstances that were not foreseen at the time of the request for this permit.

ANR apologizes for any inconvenience that this might have caused the Commission and hopes to be in a position to see that this well is drilled at some later date under a new permit.

Very truly yours,

R.T. Halfacre
