SURFACE USE PLAN

CONOCO INC.

Construction of Power Access to  
Federal 14 Com No. 1  
Penny Federal Com No. 2

OB & GAS  
GEOLOGICAL SURVEY  
NEW MEXICO

It is proposed to construct a primary line and transformer bank to supply electrical power to the subject wells.

1. The wells are located 1980' FSL and 1980' FEL of Section 14 for well No. 1 and 1650' FSL and 1780' FEL of Section 23 for well No. 2, both being T-208, R-24E, Eddy County, New Mexico.
2. The surface is owned by the United States Government and Lloyd Foster.
3. The proposed power access is shown on Exhibit A. The primary line will be constructed on thirty two 330' spans to cover a total of 10,700'. A list of material and construction schematics is included.
4. An archaeological survey has been conducted by New Mexico Archaeological Services, Inc.
5. Field personnel who can be contacted concerning compliance of this Surface Use Plan are as follows:

Production  
S. H. Knight or P. R. DeFoe  
726 E. Michigan  
Hobbs, New Mexico 88240  
Phone: 393-4141

6. I hereby certify that I, or persons under my direct supervision, have inspected the proposed site and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; that the work associated with the operations proposed herein will be performed by Conoco Inc. and its contractors and sub-contractors in conformity with this plan and the terms and conditions under which it is approved.
