Re: Waivers Consent for Unorthodox Location,  
Nonstandard Proration Unit, and  
Simultaneous Dedication  
Empire South Deep Unit #22  
Eddy County, New Mexico

Hondo  
P. O. Box 1610  
Midland, TX 79701

Gentlemen:

Amoco requests your approval, as an offset operator, for unorthodox location, nonstandard proration unit, and simultaneous dedication for our Empire South Deep Unit #22. The well is located 888 FNL x 1980 FWL, Section 31, T-17-S, R-29-E, Eddy County, New Mexico.

The unorthodox location is resultant from the well site being 289.89 feet from the quarter-quarter section line. The half section in question is less than 320 acres (297.49) resulting in the less than 330 foot distance between proposed well site and quarter-quarter section line.

The necessity of the nonstandard proration unit arises, as mentioned above, from the fact that the north half of the section consists of only 297.49 acres. This nonstandard proration unit was approved by Administrative order NSP-983, December 23, 1974, for our Empire South Deep Unit #5.

The simultaneous dedication is necessary since the subject well shares acreage with our Empire South Deep Unit #5, located 1980' FNL, 2180 FEL, Section 31, T-17-S, R-29-E.
