If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

\* Manzano has a rig availability problem and desires to set conductor pipe and cement over the expiration date, (May 11, 1988). Within a diligent time, but not more than 30 days from the setting of the conductor pipe, Manzano plans to move in the drilling rig and continue the normal drilling operations.  
Therefore Manzano Oil Corporation respectfully request an extension of 30 days (ending June 10, 1988) to the primary term of the lease.
