

1. EXISTING ROADS:

A. Exhibit "A" is a portion of a road map showing the location of the proposed well as staked. Point "A" on the plat is on US 285 at Mile Marker 3.8, approximately 12 miles south of Malaga, New Mexico, where Eddy County road 725 (paved) goes east. Also see Exhibits "B" and "D". To go to the proposed well site from this point, exit US 285 to the east and go 3.7 miles to arrive at the low water crossing of the Pecos River. Continue southeasterly 0.2 mile to where a caliche pipeline road goes northeast. Turn northeast and go 1.8 miles to where a caliche road goes northwest. Turn northwest and go 0.2 mile and then turn west and go 0.4 mile and the proposed well site is about 2800 feet south-southwest of this point.

B. Exhibit "B" shows existing pertinent roads in the vicinity of the proposed well site. Existing roads are color coded.

2. PLANNED ACCESS ROAD:

A. Length and Width: The new road will be 12 feet wide and about 2800 feet long, and is shown labeled and color coded red on Exhibit "B". The centerline of the proposed new road is staked and flagged.

B. Surfacing Material: Caliche, watered, compacted, and graded.

C. Maximum Grade: Approximately one percent.

D. Turnouts: Probably one.

E. Drainage Design: The new road will be crowned with drainage to the side.

F. Culverts: None necessary.

G. Cuts and Fills: None necessary.

H. Gates and Cattle Guards: None necessary. No fences involved.

3. LOCATION OF EXISTING WELLS:

A. Existing wells in the immediate area are shown on Exhibit "B".

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES:

A. Necessary production facilities for this proposed well will be located on the well pad.
