**Re: Proposed Oil and Gas Wells described at Exhibit A hereto**

Dear Mr. Tower:

The undersigned have received your notification that Enron Oil & Gas Company intends to drill the wells described at Exhibit A hereto. The undersigned currently have no objection to the drilling of such wells by Enron.

The current LMR and the buffer zone are determined from the best available information. As more information becomes available, the LMR can change and may be modified and adjusted. This is reflected in the yearly update of the LMR. The relationship of any well location relative to the LMR can change. Therefore, please consider the "objection offered" or "no objection offered" to a well location to be valid for one year only. If you are still considering a well location that we have or have not objected to more than one year prior, notify us again at that time so that we can make the decision on information current at that time. Do not consider a "no objection offered" or an "objection offered" decision to be permanent.

The undersigned submit this letter in lieu of the forms requested.

Very truly yours,
