Dear Milt:

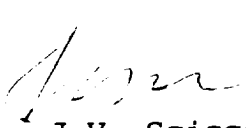

Enclosed please find ASC Report 93-232, covering the archaeological survey of the well pad for the Pure Gold "A" Federal Well No. 13 and Pure Gold "A" Federal Well No. 14 and access road R/W.

Since there were no significant cultural resources, we have recommended archaeological clearance for the well pad and access road R/W. Copies of the report have been distributed as per the list on the title page, and you need not concern yourself with distribution to those agencies.

Also enclosed please find ASC Invoice 93-232, for performance of the survey.

We are pleased to have been of service with this project, and hope to assist you in the future. Should you have questions concerning the project, please call our office.

Sincerely,

J.V. Sciscenti
Principal Investigator
