**RE: Iverson-Estate '36' #1 drilled in Hidalgo County, New Mexico. Located in
Unit F, Section 36, Township 29 South, Range 15 West, NMPM.**

Dear Sirs/Madams,

In reference to the above well, the Oil Conservation Division (OCD) does not have any records of regulatory information being submitted and/or approved as required with the exception to a C-105 completion form and electric logs which were received on November 1, 1999.

Please submit all OCD regulatory documentation, which includes an approved form C-102 that would have assigned an API # along with a signed form C-103, a subsequent report, which gave Phillips approval to plug said well. The Artesia district office from Mike Williams who was then the District Supervisor should have approved the plugging of the Iverson on form C-103 along with all the other regulatory documentation.

If you have any questions regarding this matter, please feel free to contact me at 505-748-1283.

Yours truly,

Bryan G. Arrant
District Geologist-Artesia
