RE: Navajo Tribe of Indians G #215, B-2-31N-17W, API # 30-045-11109

Dear Mr. Saied:

Our records indicate that the well listed above is inactive and not in compliance with Rule 705.

19.15.9.705 COMMENCEMENT, DISCONTINUANCE, AND ABANDONMENT OF INJECTION OPERATIONS

- A. The following provisions apply to all injection projects, storage projects, salt water disposal wells and special purpose injection wells:
- C. Abandonment of Injection Operations
 - (1) Whenever there is a continuous one year period of non-injection into any injection project, storage project, salt water disposal well, or special purpose injection well, such project or well shall be considered abandoned, and the authority for injection shall automatically terminate ipso facto.
 - (2) For good cause shown, the Division Director may grant an administrative extension or extensions of injection authority as an exception to Subsection C, Paragraph (1) above of 19.15.9.705 NMAC.

The last MIT performed on January 2, 2001, failed. This well has been continuously inactive since then, in violation of Rule 201.B.

You are hereby directed to bring this well into compliance before April 11, 2003. Review Rules 202 and 203 for the necessary filing requirements to plug and abandon, temporarily abandon or return this well to production.

Reference RBDMS WBM0306438885 on future correspondence.

Sincerely,

Bruce Martin
Deputy Oil & Gas Inspector
