13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well was plugged back to the Pictured Cliffs Formation in December 2000. And all pertinent information, including Bond logs and pressure charts, were submitted at that time. Richardson Operating Co. plans to recompleat the well in the Pictured Cliffs and Fruitland Coal Formations, however getting approvals for pipelines for this well have taken longer than expected. Richardson Operating Co. requests for this well to be classified as a Temporary Abandonment until the required permits are acquired to move gas from the location. This is expected to occur in late 2003.

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #18710 verified by the BLM Well Information System
For RICHARDSON OPERATING CO, sent to the Farmington
Committed to AFMSS for processing by Steve Mason on 02/25/2003 (03SXM0386SE)
