13. Describe Proposed or completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Merrion Oil & Gas proposes to stimulate the subject well in attempt to return it to production. The well has low reservoir pressure and low inflow. We propose to treat the perforations with surfactants and breakers in an attempt to improve the dewatering process and initiate gas production. We propose to complete this work by July 1, 2004.

14. I hereby certify that the foregoing is true and correct
