13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleting horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleting in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

It is intended to restimulate the Pictured Cliffs interval in the existing wellbore as follows:

Move in, rig up. Pull tubing and packer configuration. Set retrievable bridge plug above the existing Pictured Cliffs perforations. Pressure test the casing. Pull the retrievable bridge plug. The existing Chacra formation will be isolated and the Pictured Cliffs interval restimulated. The wellbore will be cleaned out to plug back total depth. The well will then be commingled. A down hole commingle application will be submitted.

CONDITIONS OF APPROVAL

Adhere to previously issued stipulations.

14. I hereby certify that the foregoing is true and correct.	
Electronic Submission #18420 verified by the BLM Well Information System For BURLINGTON RESOURCES O&G CO LP, sent to the Farmington Committed to AFMSS for processing by Matthew Halbert on 03/05/2003 (03MXH0539SE)
