	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once logging has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well is a good producer. The main entry road comes up the first wash inside Colorado on the land and then crosses into New Mexico. Someone has put up a fence at the border and we no longer have rig access to the well. We need to meet with the Utes and see if they will let us put in a gate at the border. If they do not let us do that, then there is another access road in from New Mexico which is in terrible condition and expensive to repair. Because of these problems, we would like to return this well to production by 07/31/04.

I hereby certify that the foregoing is true and correct
