XTO Energy proposes to surface commingle the wells listed below. Each well will have an allocation meter to measure gas volumes prior to commingling. Notice has been sent to BLM concerning this matter. Ownership is diverse in the wells associated with this application and a certified letter has been sent to working, royalty and overriding royalty interest owners via certified mail.

RE: Notice to Working and Royalty Interest Owners  
Application to Surface Commingle Gas Production  
San Juan County, NM

XTO Energy Inc. is applying to the New Mexico Oil Conservation Division (NMOCD) and Bureau of Land Management (BLM) for approval to surface commingle gas production from the Schwerdtfeger #7 and the Schwerdtfeger #8-1. The NMOCD requires all interest owners be notified of plans to surface commingle when ownership is different between wells.

Produced gas from each well will be measured separately prior to being commingled. We plan to produce the commingled gas through a shared compressor. Produced liquids will not be surface commingled. A copy of our application to surface commingle is attached for your reference. If you need additional information or have any questions, I may be contacted at (505) 324-1090.

If you have an objection to our application you must file a protest in writing to the NMOCD Santa Fe office at 1220 So. St. Francis Drive, Santa Fe, NM 87505 within 20 days from the date the NMOCD received the application. The application was mailed to the NMOCD on the date of this letter.

Sincerely,

A handwritten signature in cursive script that reads "Holly C. Perkins".
