RE: Graham C 1A, O-09-27N-08W, API 30-045-22516

Mrs. Juanita Farrell:

The 2004 Packer Leakage Test on the above referenced well does not provide the required information. It is necessary to show a crossover of pressures for the separate zones. This is accomplished by producing the higher-pressure zone until the pressure is below the lower-pressure zone. If the test cannot be accomplished in this manner, follow the instructions on the back of the form for a complete test. Conduct the test and submit the required information before August 25, 2004.

If you have any questions, please call me at 505-334-6178, ext. 16.

Sincerely yours,

Charlie T. Perrin
Deputy Oil & Gas Inspector
