13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

BP America Production Company request permission to surface commingle production the Blanco Mesaverde and Pictured Cliffs Pools from our Hughes B Wells No. 2A & 2B. Surface commingling Blanco Mesaverde & Pictured Cliffs production will consist of the Hughes B No. 2A; and Blanco Mesaverde production will be from the Hughes B No. 2B. The production from each well will be metered prior to commingling (please note: production from well no. 2A currently is being commingled downhole with production allocated to each Pool based on a fixed percentage) then the commingled production will flow into through the separator where the liquids will be removed. The commingled gas will then be sent through compression prior to entering the sales meter. (Continued on reverse side of form)

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.

APPROVED BY [Signature] TITLE PC-1120 Engineer DATE 8/6/04

Conditions of approval, if any:

Please reference the attached schematics reflecting the Current Facilities Layout and the Proposed Surface Commingling Layout provided for your reference.

The working interest, royalty and overriding royalty interest owners in the subject wells are identical.

The proposed commingling of production is to reduce operating expenses between the wells and will result in increased economic life of the wells.

BLM has also been notified of this proposal by copy of BLM Form 3160-5.
