New Construction

Plug and Abandon

Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones.

Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days Following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Plug Back

Elm Ridge Resources, Inc. proposes to TA the Gallup formation by placing a cast iron bridge plug at 4885' with 2 sks of sand on top. Conduct a MIT and continue waiting for pipe line approval before recompleting in the Fruitland coal formation. It is estimated that this will be done in 6 months or less.
