13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

M&M Production & Operation, Inc., placed a portable compressor on the above mentioned well. The well began to produce a small amount, but we have found that it would not be feasible to place a compress on this well permanently. M&M's field supervisor will continue to try increasing production by using a portable compressor on regular intervals. M&M will set the compressor on a two to three week interval schedule.
