	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input checked="" type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On August 24th, 2004, a cast iron bridge plug was set at 6,700' KBM to isolate all Dakota perforations from the well bore. Then, 2-3/8 tubing was installed at 6,633' KBM and the well was swabbed to return to production. On August 26th, 2004 at 1:00 PM the well was returned to sales.

The well is currently producing approximately 750 MCFPD, 4 BCPD, and 4 BWPD from the Gallup formation.

Please accept this report as a plug back to a single zone Gallup producer and notification of return to production.

Cancel intent to P&A
