13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomplate in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inaction.)

In November of 2003 we plugged and abandoned the Sunico 19 as per the procedure outlined below:

11/6/2003 - Fish and/or parted casing at 2700'; Unable to set CIBP at 3185' to cover Pictured Cliffs - Alternative plugging plan proposed by BLM witness, Al Yepa. Perforated at 1830' and set cement retainer at 1580'. Pumped 76 sacks of cement into retainer to cover Nacimiento and Ojo Alamo. Perforated at 154' and pumped cement and circulated to surface through bradenhead valve.

11/7/2003 - cut off casing and placed P&A marker.
