13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On 11/03/2003, BP America Production Company submitted a request to surface commingle production the Basin Dakota, Blanco Mesaverde, and Blanco Pictured Cliffs Pools from our E E Elliott B Wells No. 3, 9, & 11. Approval was granted on 12/24/2003.

Even though these wells are relatively adjacent to each other we failed to note on our original application that in the process of constructing the gas lines we would have to cross undisturbed land. As reflected on the attached schematic there are two areas of approximately 100' each in which a gathering line will cross previously undisturbed land. A Right of Way is not required since we do not cross Lease Lines or construct downstream of the CDP. BP therefore request a approval to construct the gas lines across the portion undisturbed land as indicated on the attached schematic.

14. I hereby certify that the foregoing is true and correct.
