13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ConocoPhillips would like to deepen the subject well to allow for sump/rathole in non-producing Pictured Cliffs formation. Plans are to have a mudlogger on site to verify that PC gas isn't encountered and the mud logs will be faxed to the BLM for their verification. The maximum depth we would deepen to is 3375'. If PC gas is encountered in the process, we will plug back to the base of the coal interval.

14. I hereby certify that the foregoing is true and correct. Electronic Submission #21948 verified by the BLM Well Information System For CONOCOPHILLIPS COMPANY, sent to the Farmington Committed to AFMSS for processing by Chip Harraden on 05/16/2003 (03CXH0014SE)
