13. Describe Proposed or Completed Operations

Verbal approval given by Joel Farrell 12/14/04

Burlington is currently completing this well and due the volume of water this well produces have been unable to get a pitot test and able to finalize the completion activity before the previously granted exception date of 12/15/04. We are requesting two more days for rig activity (off by December 17th) and then requesting till December 24th to set facilities and connect to pipeline on this well. This is at the NE edge of Ensenada Mesa which is considered a moderate priority in the Wildlife SDA.

14. I hereby certify that the foregoing is true and correct.
