AMENDED SUNDRY: Worko	ver, Lined:	
Burlington Resources proposes to construct a workover pit. Based on Burlington's interpretation of the Ecosphere's risk ranking criteria, the		
workover pit will be a lined pit as detailed in Burlington's Revised Drilling / Workover Pit Construction / Operation Procedures dated November		
11, 2004 on file at the NMOCD office. Burlington Resources anticipates closing the pit according to the Drilling / Workover Pit Closure Procedure		
dated August 2, 2004 on file at the NMOCD office.		
On this workover, a vent/flare pit may be the only pit that will be required. Under this circumstance, a portion of this vent/flare pit will be		
	portion will be lined, as per the risk ranking criteria.	amstance, a portion of this ventrule pit will be
