13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation plans to plugback and recompleat this well as follows: RIH with a 4-1/2" gauge ring to 1450' to check that the casing is clear then RIH with a 4-1/2" composite frac plug at 1450'. Perforate Fruitland Coal 1422'-1446'(96). Stimulate as needed. Plan to drill out plug and commingle Pictured Cliff and Fruitland Coal.

YPC plans to use a Closed Loop System.

There will not be enough H2S anticipated from the surface to the Fruitland Coal formation to even meet the OCD's minimum requirements for the submission of a contingency plan per rule 118.

14. I hereby certify that the foregoing is true and correct.
