13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Lance Oil & Gas Company, Inc. hereby requests approval to P & A this location using Sackrete and Bentonite until the hole is filled up (approximately 28') in depth. Lance intends to resurvey a new location approximately 30' from old location. Dry hole marker will not be installed per letter from Consolidated Constructors, current lessee.

Re: Proposed Lance Oil & Gas Company, Inc.
F-RPC 19-2 Gas Well
Township 29 North, Range 13, 14 West, NMPM
Section 19: NW/4
San Juan County, New Mexico

Dear Mr. Kozimor:

Pursuant to my meeting this past Monday with Mr. James Hellickson of your office, please be advised Lance Oil & Gas Company, Inc. plans on Plugging and Abandoning our original location because of difficulty in drilling the well.

The substitute well will be drilled upon approval by the Bureau of Land management at a location approximately 50' from the old location.

According to conversations with Mr. Jim Lovato of the local BLM office, I need to know if your company would like Lance to install a dry hole marker on the location of the abandoned hole. This is normal, however the choice is up to you as the current lessee of the surface.

Lance intends to put bentonite and sackrete in the old hole (approximately 25' in depth).

Please indicate your desire to either have Lance put a dry hole marker on location or not.

Your earliest attention to this request is appreciated.

Please call me at 598-5601, Ext. 57, or cell 486-0066, if you have any questions.

Sincerely,

Paul Lehrman
Sr Landman
