Gentlemen:

Attached is a copy of the allocation for the subject well that was completed 8-19-2002. DHC-199az was issued for this well.

Gas: Mesaverde 68%
Dakota 32%

Oil: Mesaverde 68%
Dakota 32%

These percentages were calculated using rate-time reserve estimate comparisons for each respective formation. This well has not produced any oil. For that reason, oil percentages are based upon gas allocation and are provided in the event this wellbore begins producing oil at some point in the future.

Please let me know if you have any questions.

Sincerely,

Peggy Cole
