13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will be performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

When drilling 100' PC sump in subject well, a significant gas show was seen in PC. After discussion with BLM it was decided to abandon sump. During cavitation operations, sump was filled with cuttings from above. A Bentonite plug was mixed and spotted across top of PC from 3690' to 3662'. After liner was run in hole the new PBTD is 3662'.
