

Core #4 continued

- 43 Same as above, slight trace pinpoint porosity
- 44 same as above, no porosity
- 45 same as above, trace pinpoint porosity, horizontal and vertical fracture
- 46 same as above, trace pinpoint porosity, horizontal & vertical fracture
- 47 same as above, trace pinpoint porosity, horizontal fracture
- 48 light tan dense ls, horizontal fracture
- 49 light tan dense ls, carb. partings, horizontal fracture
- 50 light tan dense ls, carb. partings, horizontal fracture

DST #6 7858-7946

Tool open 3 hours
Sweet gas to surface 1 hour 16 minutes
Weak blow air immediately, increasing to strong in 30 min. Flowed by heads throughout test. No fluid to surface
Recovered 580' heavy gas cut mud
FP 0-120#
SIP (30 min) 350#
HH 4200#

DST #7 7774-7790'

Tool open 3 hours 45 minutes. Weak blow, increasing to strong blow in 15 minutes which lasted throughout test. No gas to surface
Recovered 135' gas cut mud, 315' gas and oil cut salt water
FP 0-170#
SIP 2685#
HH 4220# in, 4115# out.
