Subject: RE: [EXT] Extension for sampling

Good morning Philana,

The OCD grants the extension for site closure at the Pretty Lady SWD. The final C-141 shall be submitted to the OCD by April 30, 2019.

Thank you,

Subject: [EXT] Extension for sampling

Vanessa,

We would like to request an extension for time to complete the soil sampling event on the Pretty Lady 30-11-34 #1 (30-045-30922). The weather has created issues with being able to obtain adequate samples from the areas of the spill due to wet and severely muddy conditions. We would like to request a 30 day extension, from the time of original spill, of April 30th. We hope this will give the location time to dry out. We would also propose weekly checks/updates to see the progress of the location. In the event the location appears to be dry enough to sample we will contact you, Vanessa, to set up a sampling event. We hope by asking for a 30 day extension this does allow plenty of time for the location to begin to dry out and if future moisture continues to cause havoc we can still stay within a reasonable time frame.

Thank you for your consideration,
Philana
