13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Dugan Production Corp. requests shut-in of this well. In the event of a prolonged shut-in, we will follow the direction and guidance issued by IM 2020-006 unless the FFO or BLM Santa Fe issues new guidance that supersedes the IM.

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #510729 verified by the BLM Well Information System
